## This information is relevant to local suppliers and subcontractors, registered in the Arab Republic of Egypt

Dear Partners,

Please, be advised that in accordance with the article 7 of Law №13 of 1976, as amended by Law №210 of 2017, foreign contractors and subcontractors are exempted from all taxes and fees that may be levied in the course of fulfilling their obligations under contracts concluded in the course of fulfilling obligations for the construction of the El-Dabaa NPP.

The procedure of exemption is the following.

The package of documents shall contain:

- The contract and its appendices and addendums (if any) with its certified translation into Arabic
- Copies of your company's tax ID Arabic and English
- Extract of commercial register Arabic and English
- VAT registration card Arabic and English
- A guarantee letter from your side (the template will be sent to you after the contract is signed)
- Request forms prepared by us
- Other documents depending on the nature of the contract and how the procedure is going

As soon as the package is ready, it will be sent to revision to the General Contractor. When the request for exemption is sent to the General Contractor it takes, at the very minimum, 2.5 months to issue a certificate of exemption from Tax Authorities of the ARE. If the translation of the Contract into Arabic is prepared by our side, the duration of the procedure will increase. You will be notified as soon as we receive the original of the certificate. A soft copy of the certificate will be sent to your assigned representative. You will be able to receive the original of the certificate in our office in Cairo.

In addition, we would like to inform you that in cases when the contract clearly states that the price excludes VAT any invoice with VAT issued from your side will be rejected in the E-invoicing system. Please, always include information about the goods supplied, works performed and etc., and the number of the contract in your E-invoice and hard copy (if any).

In case you have any questions concerning VAT exemption, feel free to contact Mr. Kirill Shevchenko:
